

THE KIOSK AT FLATIRON CORNER

Twenty-two years ago, a group of thirteen local volunteers created Lubec's centerpiece park, known as 'Flatiron Corner.' They planted gardens and a pine tree now used as the town's Christmas Tree, and built a small kiosk, utilized by merchants to promote their wares and local organizations to publicize their activities.

The kiosk has outlived its construction and now needs to be replaced. We need your help in raising the necessary funds to honor and preserve the group's vision. APPLE, the Association to Promote and Protect the Lubec Environment, a 501(c)(3) non-profit corporation, has taken on the task of preparing to meet the needs of the future.

Very few of the original thirteen remain with us today. Want to know who they were? Step inside the kiosk, turn back and look up – their names are all listed. Contributions are tax deductible; your check can be sent to Post Office Box 535, Lubec 04652, or you can contribute on line via our website at www.visitlubecmaine.com; please enter 'kiosk' to the comment line.
